

Luis M. Montes, Law Offices of Luis M. Montes

Bio

In the counseling and practice of business law, Luis protects his clients, and he removes the dread and uncertainty of litigation. People around Luis rely on his business judgement and practical experience of running a business before he became an Attorney. He also learns volumes as he mentors new members of the Bar.

When not working on his practice, Luis is flyfishing, practicing his tournament fly casting, skiing, or reading at a North Beach coffee shop. He is likely reading the Autobiography of a Yogi, planning to attend the Symphony or a Metallica concert, or working on the Horse.
